Career Objective

Articulate and self-motivated professional with a strong interest in **RevOps**, **CRM implementation**, and **business process automation** for B2B companies. Experienced in stakeholder communication, **business process mapping**, KPI-driven reporting, and building data-driven dashboards that translate raw data into actionable business insights. Eager to learn CRM platforms such as **HubSpot**, support **workflow automation** and **system integrations** for sales and marketing teams, and contribute to real client implementation projects in fast-paced, remote, international B2B environments. Backed by a technical foundation (Python, data analysis) that supports fast learning of new systems and tools.

Education

Master of Computer Applications (MCA) Vellore Institute of Technology	2025 – Present CGPA: 6.83/10
---	---------------------------------

Core Strengths

- **Business Communication & Client Relations** – Clear, articulate corporate communication; strong written and verbal English communication skills
- **Presentation & Interpersonal Skills** – Experienced in stakeholder-facing presentations for international and cross-functional teams
- **Analytics & KPI Reporting** – Tableau, Google Sheets, JIRA, KPI Tracking, Data Structuring & Reporting, Dashboard Building
- **Process & Workflow** – Business Process Mapping, Workflow Automation, System Integrations
- **Team Leadership** – Cross-functional, Agile/Scrum environments
- **CRM Aptitude** – Quick learner on CRM tools such as HubSpot; comfortable with structured, system-driven workflows
- **Supporting Technical Foundation** – Python, Pandas, NumPy, Selenium (for automation & data handling)

Leadership & Communication Skills

- | | |
|--|---------------------|
| Core Member – GeeksforGeeks Student Chapter | Jan 2026 – Jun 2026 |
| <ul style="list-style-type: none">• Served as social media lead and led outreach and communication strategy for a student community, driving event promotion and stakeholder engagement• Collaborated with cross-functional teams to plan and execute community-building initiatives, strengthening relationships with members• Demonstrated strong presentation, initiative, and organizational skills in a fast-paced, deadline-driven setting | |

Relevant Projects

- | | |
|---|----------|
| VaaniSense – Multilingual AI Complaint Platform with Analytics | Nov 2025 |
| <ul style="list-style-type: none">• Delivered a client-facing analytics dashboard for monitoring complaint trends, structuring raw data into actionable business insights and reports• Built escalation workflow logic and business process mapping aligned with RBI/TRAI/SEBI compliance standards, reflecting professionalism and regulatory awareness• Presented KPI-driven insights to support data-backed decision-making for stakeholders | |
| Meeting Intelligence & Summarizer Tool | 2026 |
| <ul style="list-style-type: none">• Built a full-stack tool that transcribes meeting audio using Whisper and uses an LLM to generate clear summaries, key decisions, and action items with owners and deadlines• Designed a semantic search layer (RAG) using ChromaDB and embeddings, letting users search and ask questions across their entire meeting history instead of just one session• Developed the backend with FastAPI and SQLAlchemy/SQLite, paired with a Streamlit frontend showing a live Kanban-style action tracker and meeting analytics dashboard | |

Certifications

- Full Stack Python – TuteDude (Python, OOP, Django, REST APIs, Selenium)
- Microsoft Certified Data Science Course – NIIT Foundation
